

"We increase your NetSuite ROI" while making your company a "Raving fan of NetSuite"

Stop Losing Millions to Hidden Costs!

In today's cutthroat global market, every unchecked cost is a silent profit-killer—freight surcharges, customs duties, sneaky taxes, and surprise fees don't just nibble at your margins—they shred them to pieces. If you're a NetSuite user struggling to pin down the true cost of your goods, you're not just playing a guessing game—you're gambling with your business's future.

*Enter 8Quanta Estimated Landed Cost (**8Q ELC**) solution: the game-changer that obliterates cost uncertainty and arms you with razor-sharp precision to dominate your finances.*

*Seamlessly integrated with NetSuite, **8Q ELC** calculates, tracks, and reconciles your landed costs in real time, turning chaos into clarity and losses into staggering gains.*

*With 8Quanta battle-tested expertise, you're not just buying a tool, you're securing a competitive edge that could save you millions. Don't let hidden costs bleed you dry another day. Try **8Q ELC** - must-have solution to revolutionize your business now!*

Why 8Quanta's ELC? Because Your Profits Can't Afford Anything Less

At 8Quanta, we've spent years in the trenches with businesses like yours, having powered over 350 NetSuite implementations across the globe. We've seen the wreckage hidden costs leave behind: budgets blown apart by missed duties, decisions stalled by unreliable data, and profits gutted by guesswork. That's why we built our Estimated Landed Cost (**8Q ELC**) solution—to annihilate these threats and hand you the keys to total cost control. This isn't just software—it's a lifeline for NetSuite users who refuse to settle for mediocrity.

Forget the days of juggling error-prone spreadsheets or praying your estimates aren't off by thousands. **8Q ELC** embeds directly into NetSuite, delivering a seamless system that calculates every cost—product price, freight, customs, taxes, handling—and reconciles estimates with actuals faster than you can say "profit margin." It posts costs alongside inventory receipts in your General Ledger (GL), ensuring your Cost of Goods Sold (COGS) is

"We increase your NetSuite ROI" while making your company a "Raving fan of NetSuite"

always dead-on, no exceptions. With 8Quanta global team spanning the U.S., UAE, and Philippines, you've got near-24/7 support from experts who've saved companies millions by

turning cost nightmares into goldmines. One client slashed their annual cost overruns by \$1.8 million in just six months with **8Q ELC**—imagine what it could do for you.

What makes **8Q ELC** irresistible? It's not just about fixing problems—it's about rewriting your future. We've helped businesses uncover hidden savings, outmaneuver competitors, and scale faster than they ever thought possible. This isn't a "nice-to-have"—it's the difference between scraping by and soaring past your rivals. Your profits deserve the best, and **8Q ELC** delivers nothing less.

Game-Changing Features That Redefine What's Possible

8Quanta's ELC solution is packed with features that catapult your business into a new stratosphere of efficiency and profitability. Here's what you're getting when you say yes to 8Q ELC:

- 1. Pinpoint Cost Precision That Leaves Nothing to Chance: 8Q ELC** calculates your true landed cost down to the penny—covering product price, freight, duties, taxes, handling, and more. With customizable NetSuite Landed Cost templates, you can allocate costs by quantity, weight, flat amount, percentage, or volume, ensuring every expense is nailed down with surgical accuracy.
- 2. Auto-Reconciliation That Saves Your Sanity—and Your Budget:** When actual costs hit, **8Q ELC** doesn't flinch. It automatically reconciles estimates with actuals, updating your GL and inventory records in real time—no manual fixes, no errors, no wasted hours. Your financials stay rock-solid, even when the unexpected strikes.
- 3. Real-Time Insights That Turn Chaos into Control: 8Q ELC** gives you X-ray vision into your costs at every stage—from purchase order to final delivery. Spot a surprise customs hike before it blows your budget. Catch a freight overcharge before it's too late. With **8Q ELC**, you're not reacting—you're dominating.

4. **Profit-Unlocking Margin Calculations: 8Q ELC** doesn't just track costs, it shows you where the money's hiding. Item-level margin insights reveal the true profitability of every product after all expenses, empowering you to price smarter, negotiate harder, and squeeze every dollar of value from your operations.
5. **Scalability That Fuels Your Wildest Ambitions:** Whether you're managing a single warehouse or a sprawling global supply chain, **8Q ELC** scales effortlessly. It supports unlimited templates and multi-currency, multi-subsidary setups, ensuring your cost management keeps pace with your growth—no matter how big you dream.

The Stakes Are Sky-High: Slash Costs, Amplify Profits, and Crush the Competition

Investing in 8Quanta's ELC isn't just a smart choice, it's a profit explosion waiting to happen. Imagine cutting your cost reconciliation time by 50% overnight, freeing your team to chase high-stakes opportunities like securing better suppliers or speeding up delivery cycles. One of our clients, a mid-sized e-Commerce importer, saved \$2.1 million in their first year by using **8Q ELC** to uncover hidden freight and duty overcharges—money they turned into a market-crushing expansion.

Then there's the accuracy factor. Manual cost tracking is a disaster waiting to happen—missed fees, botched allocations, and currency errors can torch your budget in a heartbeat. **8Q ELC** wipes out these risks, delivering precision that keeps your margins fat and your stress levels low. Another client slashed their cost variances by 45%, allowing them to undercut competitors without sacrificing a dime of profit. That's not just efficiency, that's a superpower.

But the real magic? **8Q ELC** turns cost clarity into a competitive weapon. Real-time data lets you negotiate better terms with suppliers, optimize shipping routes on the fly, and pivot pricing strategies before the market shifts. Picture this: knowing the exact landed cost of every product lets you price with surgical precision, winning deals while padding your profits. With **8Q ELC**, you're rewriting the rules of profitability and leaving your competitors in the dust.

Why Now? Because Every Second You Wait Is Money Down the Drain

Let's cut to the chase: if you're still wrestling with manual processes or patchwork tools to manage landed costs, you're hemorrhaging cash—and the competition is laughing all the way to the bank. Are unexpected fees eating your margins alive? Are delayed reconciliations

"We increase your NetSuite ROI" while making your company a "Raving fan of NetSuite"

stalling your financial closes? Is poor visibility into costs keeping you up at night? These aren't just inconveniences, they're profit-killers, and they're costing you more every single day you let them fester.

The time to act is now! 8Quanta's ELC is your ticket to financial domination. Backed by our unmatched NetSuite expertise and a track record of saving businesses millions, **8Q ELC** delivers results that hit your bottom line from day one. With flexible pricing and rapid deployment, you'll be up and running before your next shipment lands—and seeing ROI before your competitors even know what hit them. Don't wait for the next budget-busting surprise to force your hand—take control today and turn cost chaos into your greatest asset.
