

MAXIMIZE YOUR NETSUITE ROI

with

8Q Support revolutionizes NetSuite assistance through advanced AI-powered language models (LLMs) that deliver precise, functional responses instantly.

With 8Q Support, users bypass the need to sift through multiple links, receiving accurate answers that understand and address complex queries.

KEY FEATURES

Quick Functional Guidance

8Q SUPPORT leverages LLM technology to interpret and respond to detailed NetSuite questions, providing users with intuitive and conversational access to information.

This AI model excels at contextual comprehension, allowing it to follow the conversational flow, recall previous interactions, and adapt its responses to meet specific inquiry needs.

Contextual Understanding

Voice Reply Capability

With built-in voice response, 8Q Support offers a hands-free option for receiving answers. This spoken-response functionality caters to users who prefer auditory feedback.

MAXIMIZE YOUR NETSUITE ROI

Helps NetSuite customers worldwide by the ability to set a preferred language for interactions, making it a versatile and accessible for global teams.

To create a sales order in NetSuite, follow these steps:

- Navigate to Transactions:** Go to the main navigation bar and select Transactions > Sales > Enter Sales Orders. This will open the sales order form.
- Select the Customer:** Start by selecting the customer for whom you are creating the sales order. You can choose from existing customers or add a new one if necessary.

programmed with a sense of humor to make learning more fun!

Enables users to quickly get answers to their NetSuite-related questions, improving efficiency and reducing the time spent searching for information. Users can also add company-specific information, such as SOPs, allowing the agent to respond with tailored, user-specific answers

Integrates an AI-driven chat agent into NetSuite, meeting the growing demand for intelligent, efficient support. It enhances user experience by providing quick access to information, improving operational efficiency, and offering significant value to businesses, positioning it to attract a broad customer base.
